Traces the evolution of Harley-Davidson's two-wheeled cruisers, from the first police motorcycles of the teens to the comeback of the eighties and nineties. Illus.

Provides an introduction to the law enforcement officers known as motorcycle police, including their history, functions, responsibilities, training, equipment, and the criminals they target.

Motorcycle cops are among the most skilled riders ever to throw a leg over a two-wheeler, performing all the tasks of their car-driving counterparts, but on much faster and more vulnerable machines. This full-color book takes readers into the world of the modern motorcycle officer, offering comparisons of popular police bikes built by Harley-Davidson, Kawasaki and BMW; special equipment for the bikes and officers; training and patrolling techniques; and the special tasks associated with motorcycle officers.

A handsome, informative overview of Harley Davidson's 100 plus years of style and innovation.

This illustrated guide is packed with interesting facts and follows the history of the famous Harley-Davidson company and the development of its famous bikes, which have earned a special place in the hearts of enthusiasts everywhere. The story dates from 1903 when Bill Harley and the Davidson brothers, with no thought of fame or fortune, decided to build a motorcycle that really worked. So successful was it, that it led to the gradual formation of a company that has survived through good times and bad. Through good times and bad, losing and winning back police contracts, as well as weathering various other vicissitudes, the company has achieved lasting success. In the end, Harley-Davidson came to the ultimate decision of giving its customers what they really wanted, not by providing year-on-year innovations, but by remaining true to the Founders' original concept. The result, as everyone knows, are bikes of mythic status, imbued with a mysterious quality of their own and generating a passion in enthusiasts amounting almost to a love affair. The name has come to personify America and is up there alongside Coca-Cola, Ford and McDonald's. The bikes are described in detail, not only in mechanical terms, but also with glorious photographs, and will be of interest to everyone who loves motorbikes: even aficionados of Japanese and European bikes, who have never even ridden a Harley-Davidson, will be able to recognize the unique marriage of style and nostalgia and the fact that there are no other bikes quite like them.

This helps us to continue providing great products and helps potential buyers to make confident decisions. Thank you in advance for your review and for being a preferred customer

It is a long, long way from Faith to Trust in the Lord. Some people spend their whole life's journey and never get there, while others seem to make it in a very short time. There is a story of a man laden with troubles. As he walks a canyon ledge deep in thought, he tries to figure out how to solve them. As he gazes over the canyon below, he begins kicking small stones over the ledge and watches them as they fall for what seems like a thousand feet. He continues to watch as one by one, they crash onto the canyon floor. Consumed with his troubles, he kicks another stone, but this time he loses his balance and falls. He tries to grab the ledge where he stood, but his hands are unable to take hold of anything that can save him. Directly below him, is a small branch growing out of the canyon wall. He falls on it and he manages to get a firm grip just in the nick of time. But now he is hanging by his hands over the rocky canyon floor. He has no idea how long the small branch will support him or how long he can hang on. He looks at the canyon ledge where he once stood and sees it is about fifteen feet above him and that the face is smooth rock. He is in a remote place in the wilderness and he knows there is no chance of someone coming by or hearing his cries for help. He knows he cannot climb up and he knows if he lets go, he will fall to his death. As he hangs there he cries out for the Lord to come and save him. The heavens seem to be silent for what seems an eternity, as he contemplates what will happen if he lets go or loses his grip. Over and over he cries out, "Lord, help me please, please, help me!" Then he hears a voice. It's not a loud voice. What he hears doesn't come with thunder and lightning, nor does it come as an earthquake. But instead, it comes as a small, familiar voice, almost as if it were from inside him. It is filled with love, peace and comfort. Amidst all his problems, his focus changes to the engulfing love he now feels inside. The voice says, "Do you believe in the Lord?" "Oh yes!" came his reply. "You know I believe, Lord!" "Do you believe that I am the Lord?" "Oh yes Lord! I can tell by the feeling within me, that it is you, Lord!" "Do you believe that I can save you?" came the voice for a third time. "Oh yes!" came his reply! "You know I believe you can save me!" Then the voice came again and said, "Then let go of the branch." In each of our lives comes that moment where we find that merely having faith in the Lord is no longer enough. But moving from hanging on—or believing, to being able to let go of the branch—or trusting, requires a willingness to take the Lord at His word. As you seek Him, He will bring you to that point, where you are more willing to let go of the branch than you are to keep hanging on. It begins as a step by step, personalized journey with Him that is called, From Faith to Trust. This book is a collection of true motorcycle adventures where the author, a retired officer, a High Priest and Police Chaplain, travels through Mexico, Guatemala, British Honduras-Belize, the Yucatan Peninsula, the Gulf of Mexico, the Pacific Coast Highway, the Baja, and the 2010 Hoka Hey, from Key West, Florida, to North Pole, and Homer, Alaska. Through his life experiences, his police career and each of these motorcycle adventures, he is led closer and closer to his best Friend, the Lord. He now shares the motorcycle stories and the seventy secrets he learned as he rode and slept out, the thousands of miles he traveled. All together, they answer the question, What Would You Give to Never be Afraid Again.

From Pittsburgh's adoption of motorcycles for police use in 1909 to Gen. John J. "Black Jack" Pershing's 1916 pursuit of Pancho Villa into Mexican territory on Harley-Davidsons, Indians and Excoilers to the deployment of motorcycles in both world wars, this book tells the fascinating tale of these magnificent machines from their 20th century beginnings to their current use by police departments and militaries throughout the world. Joseph Berk, author of The Gating Gun, explores every aspect of police and military motorcycles, including the history of their manufacture by Harley-Davidson, Indian, Kawasaki, BMW, Honda and others; details of their procurement by selected U.S. police departments; critiques of the "Big Three" police models employed in the United States from officers who have put them to the test; a detailed outline of the intensive 10-day training program required of U.S. motor officers; an inside look at how specific police departments from Atlanta to L.A. utilize motorcycles on a day-to-day basis; and a look at the specific makes and models used by Special Forces and other military units from World War I through the turn of the century and beyond.

Celebrating the motorcycles and the memories that have made Harley-Davidson an American legend.

The emergence of Public Safety and Law Enforcement Motorcycle Clubs which allegedly closely resemble Outlaw Motorcycle Gangs in their style of dress has created controversies within the law enforcement and outlaw biker communities. Public Safety and Law Enforcement Motorcycle Clubs represent a social response to the breakdown of the police subculture, specifically, the erosion of brotherhood, internal solidarity, and camaraderie within police departments. Police officers who shared a passion for riding motorcycles created their own unique hybrid subculture in order to restore a sense of brotherhood and belonging among themselves. The salient features of the subculture are brotherhood, the wearing of colours with the 3-piece back patch, and riding Harley Davidson motorcycles in group formation. These features hold symbolic meanings for the club members and serve important functions within the subculture. Through motorcycling, Public Safety and Law Enforcement Motorcycle Clubs provide their members with meaningful social participation and interpersonal relations, which re-establishes meaning and a sense of purpose in their lives. This book will make a significant contribution to knowledge because it is the only book written of its kind. Few, if any, researchers have ever been able to obtain access to the Public Safety and Law Enforcement Motorcycle Club subculture and no other scholar has systematically observed and interviewed members of these clubs. This book may have important implications for law enforcement officials who do not understand these officers and their choice of membership in such clubs. Additionally, this book will be beneficial to club members because they have been given a voice and an opportunity to tell their stories to the public. Police officers, academics, bikers, and the general public will also find this book to be a rare and valuable glimpse into a subculture that most people know very little about.
