Synopsis. Bateman and Snell's

"Management: Leading & Collaborating in
a Competitive World" is a text with a fully
modernized functional approach. This text
is maintaining the four traditional
functions of planning, organizing, leading,
and controlling, while modernizing and re-
visioning the concepts as delivering
strategic value, building a dynamic
organization, mobilizing people, and
learning and changing.

around.

Although this revised edition of the text takes a traditional functional approach to management, it is organized around four modern themes: cost, quality, speed and innovation.

Management is the newest principles of management textbook on the market, and was created with students and professors needs in mind. Students receive a cost-effective, easy to read text complete with study resources (both print and online) to help them review for tests and apply chapter concepts. Professors receive a text that contains all the pertinent information we know they cover in Principles of Management - yet in a more condensed format that is easier for students to cover.

It also contains gradable online assignments for instructors to assign. MANAGEMENT includes comprehensive teaching support and online supplements.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. Contributing

and theory related to the issues that impact nursing management and leadership today. Key topics include the nursing professional's role in law and ethics, staffing and scheduling, delegation, cultural considerations, care management, human resources, outcomes management, safe work environments, preventing employee injury, and time and stress management. Research Notes in each chapter summarize relevant nursing leadership and management studies and show how research findings can be applied in practice. Leadership and Management Behavior boxes in each chapter highlight the performance and conduct expected of nurse leaders, managers, and executives. Leading and Managing Defined boxes in each chapter list key terminology related to leadership and management, and their definitions. Case Studies at the end of each chapter present real-world leadership and

management situations and illustrate how key chapter concepts can be applied to actual practice. Critical Thinking Questions at the end of each chapter present clinical situations followed by critical thinking questions that allow you to reflect on chapter content, critically analyze the information, and apply it to the situation. A new Patient Acuity chapter uses evidence-based tools to discuss how patient acuity measurement can be done in ways that are specific to nursing. A reader-friendly format breaks key content into easy-to-scan bulleted lists. Chapters are divided according to the AONE competencies for nurse leaders, managers, and executives. Practical Tips boxes highlight useful strategies for applying leadership and management skills to practice.
