He ran a network of agents in England and Europe who provided him with information about invasions or assassination plots. He recruited likely young men and 'turned' others.

The Queen's Agent (Book) | Washington County Cooperative ...

Spain plotted an invasion, however Elizabeth's Secretary, Francis Walsingham, was ready to do no matter it took to guard her. He ran a community of brokers in England and Europe who supplied him with details about invasions or assassination plots.

Elizabeth I came to the throne at a time of insecurity and unrest. Rivals threatened her reign; England was a Protestant island, isolated in a sea of Catholic countries. Spain plotted an invasion, but Elizabeth's Secretary, Francis Walsingham, was prepared to do whatever it took to protect her. He ran a network of agents in England and Europe who provided him with information about invasions or assassination plots. He recruited likely young men and 'turned' others. He encouraged Elizabeth to make war against the Catholic Irish rebels with extreme brutality and oversaw the execution of Mary Queen of Scots. The Queen's Agent is a story of secret agents, cryptic codes, and ingenious plots, set in a turbulent period of England's history. It is also the story of a man devoted to his queen, sacrificing his every waking hour to save the threatened English state.

A captivating chronicle of the exploits of Sir Francis Walsingham—the first great English spymaster and the man who saved Elizabeth's regime and the country's independence. Elizabeth I came to the throne at a time of insecurity and unrest. Rivals threatened her reign; England was a Protestant island, isolated in a

sea of Catholic countries. Spain plotted an invasion, but Elizabeth's Secretary, Sir Francis Walsingham, was prepared to do whatever it took to protect her. He ran a network of agents in England and Europe who provided him with information about invasions or assassination plots. He r.

Sir Francis Walsingham's official title was principal secretary to Queen Elizabeth I, but in fact this pious, tight-lipped Puritan was England's first spymaster. A ruthless, fiercely loyal civil servant, Walsingham worked brilliantly behind the scenes to foil Elizabeth's rival Mary Queen of Scots and outwit Catholic Spain and France, which had arrayed their forces behind her. Though he cut an incongruous figure in Elizabeth's worldly court, Walsingham managed to win the trust of key players like William Cecil and the Earl of Leicester before launching his own secret campaign against the queen's enemies. Covert operations were Walsingham's genius; he pioneered techniques for exploiting double agents, spreading disinformation, and deciphering codes with the latest code-breaking science that remain staples of international espionage.

A profile of the leading spymaster for Queen Elizabeth I explores his role in uncovering information that helped preserve England in the face of a network of powerful English Catholic families and the efforts of Catholic Spain to impose Catholicism on its

As she travels through Waltham Forest, Queen Elizabeth I is ambushed by masked gunmen who leave her carriage riddled with holes before disappearing into the night. The queen searches for the ultimate weapon to protect her country and throne: Greek fire, the recipe of which disappeared with the collapse of the Byzantine Empire. She orders her friend John Dee - scientist, philosopher, and spy - to rediscover this vital secret, despite his misgivings. Dee's mission to secure his nation's future may prove impossible, unless he deploys the most effective weapon of all: intelligence. Print run 40,000.

In this first novel of the exhilarating Agents of the Crown series, a man who will become the original MI6 agent protects England and Her Majesty Queen Elizabeth I from Spain's nefarious plan to crush the Age of the Enlightenment. After centuries locked in an endless cycle of poverty, persecution, and barbarity, Europe has finally emerged into the Age of Enlightenment. Scientists, philosophers, scholars, and poets alike believe this to be a new era of reason and hope for all. But the forces of darkness haven't completely dissipated, as Spain hunts and butchers any who dare to defy its ironclad Catholic orthodoxy. Only one nation can fight the black shadow that threatens this new age, and that is Britain, now ruled by a brilliant young Queen Elizabeth I. But although she may be brave and headstrong, Elizabeth knows she cannot win this war simply by force of arms. After her armies have been slashed in half, her treasury is on its knees. Elizabeth needs a new kind of weapon forged to fight a new kind of war, in which stealth and secrecy, not bloodshed, are the means. In this tense situation, Her Majesty's Secret Service is born with the charismatic John Dee at its head. A scholar, a soldier, and an alchemist, Dee is loyal only to the truth and to his Queen. And for her, the woman he's forbidden from loving, he is prepared to risk his life. A visceral and heart-pumping historical thriller, *The Eyes of the Queen* is perfect for fans of Ken Follett and Dan Brown.

During the brief reign of the Queen Mary, Walsingham was a Protestant exile in Italy. Returning home when Elizabeth assumed the throne, from 1570 he became a diplomat to the arch-pragmatist Queen. He was often troubled by her inconsistent policy decisions and for allowing the exile in England of Mary Queen of Scots. His triumph came in 1587 when Mary was at last beheaded after the cunning defeat of the Babington plot. A powerful, if enigmatic figure, loathed by his adversaries and deeply admired by friends and allies, Walsingham became the master co-ordinator of a feared pan-European spy network. His spies underpinned his organisation of national resistance to the Spanish Armada, but devotion and duty to Elizabeth was costly and Walsingham died two years later in penury. Historian and storyteller Derek Wilson delves deeply into the life of a fascinating and highly influential figure, bringing us tales

of deceit, betrayal and loyalty along the way; popular history of the highest calibre. see www.derekwilson.com

In a Europe aflame with wars of religion and dynastic conflicts, Elizabeth I came to the throne of a realm encircled by menace. To the great Catholic powers of France and Spain, England was a heretic pariah state, a canker to be cut away for the health of the greater body of Christendom. Elizabeth's government, defending God's true Church of England and its leader, the queen, could stop at nothing to defend itself. Headed by the brilliant, enigmatic, and widely feared Sir Francis Walsingham, the Elizabethan state deployed every dark art: spies, double agents, cryptography, and torture. Delving deeply into sixteenth-century archives, Stephen Alford offers a groundbreaking, chillingly vivid depiction of Elizabethan espionage, literally recovering it from the shadows. In his company we follow Her Majesty's agents through the streets of London and Rome, and into the dank cells of the Tower. We see the world as they saw it—ever unsure who could be trusted or when the fatal knock on their own door might come. *The Watchers* is a riveting exploration of loyalty, faith, betrayal, and deception with the highest possible stakes, in a world poised between the Middle Ages and modernity.

The sixteenth-century Spanish Jesuit Pedro de Ribadeneyra's *Ecclesiastical History of the Schism of the Kingdom of England* is a lively, polemical Catholic account of the English Reformation, translated into English for the first time by Spencer J. Weinreich.

Queen Elizabeth's spymasters recruit an unlikely agent—the only Muslim in England—for an impossible mission in a mesmerizing novel from “one of the best writers in America” (*The Washington Post*) “Evokes flashes of Hilary Mantel, John le Carré and Graham Greene, but the wry, tricky plot that drives it is pure Arthur Phillips.” *The Wall Street Journal* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE WASHINGTON POST** The year is 1601. Queen Elizabeth I is dying, childless. Her nervous kingdom has no heir. It is a capital crime even to think that Elizabeth will ever die. Potential successors secretly maneuver to be in position when the inevitable occurs. The leading candidate is King James VI of Scotland, but there is a problem. The queen's spymasters—hardened veterans of a long war on terror and religious extremism—fear that James is not what he appears. He has every reason to claim to be a Protestant, but if he secretly shares his family's Catholicism, then forty years of religious war will have been for nothing, and a bloodbath will ensue. With time running out, London confronts a seemingly impossible question: What does James truly believe? It falls to Geoffrey Belloc, a secret warrior from the hottest days of England's religious battles, to devise a test to discover the true nature of King James's soul. Belloc enlists Mahmoud Ezzedine, a Muslim physician left behind by the last diplomatic visit from the Ottoman Empire, as his undercover agent. The perfect man for the job, Ezzedine is the ultimate outsider, stranded on this cold, wet, and primitive island. He will do almost anything to return home to his wife and son. Arthur Phillips returns with a unique and thrilling novel that will leave readers questioning the nature of truth at every turn.
